The European Fair of Enterprises and Cooperatives in Social Economy will be held for the fifth time in a row in 2016 at the Fairgrounds of International Fair Plovdiv.

The event was launched in 2003, the European Year of People with Disabilities.

Since 2012, the exhibition has developed into an international event - a European forum comprising an international conference, a roundtable discussion and a European Fair.

The holding of the forum was possible thanks to the support of the Ministry of Labour and Social Policy of Bulgaria, International Fair Plovdiv and the European Commission, which is the co-organizer of the event, has its own exhibition stand at the fair and is an active participant in the conferences and roundtable discussions as well.

Such forums, organized in the countries of the European Union, are unique events in view of their nature and objectives.

International Fair Plovdiv, the largest exhibition centre in Southeastern Europe, has been hosting these events in one of the most impressive pavilions at the Fairgrounds. The occupied exhibition area is about 1,000 sq.m.

In 2015, participants in the European Fair were about 100 social enterprises and cooperatives from Belgium, Bulgaria, Italy, Romania, Spain and Turkey, and the number of visitors amounted to 30, 000.

The exhibitors showed products, household articles and services within the scope of business activities of the enterprises, including small antique objects, wooden articles and products for people with hearing and speech impairment, etc.

Considerable exhibition space is also devoted to the services intended for people with disabilities.

All expenses relating to the exhibition stand design, stand decoration, arrangement, inscriptions, printing and distribution of advertising catalogues in Bulgarian and English, as well as TV promotion shall be covered by the organizers.

International Fair Plovdiv provides an excellent exhibition venue and opens up opportunities for establishing new business contacts and partnerships.
