Cooperative Vision for a Sustainable and Competitive Europe: Priorities for the 2024-2029 EU term

The EU is currently preparing for a new political chapter. From boosting business competitiveness and funding to upholding social rights, from mainstreaming sustainability in a feasible way for businesses to safeguarding democracy in the face of conflicts and rising individualism, the Union is facing pressing socio-economic challenges that require collective and coherent action.

The European Cooperative Movement is therefore gathering for an extraordinary event on 5 November in the European Parliament to showcase how cooperative enterprises are addressing challenges and providing innovative solutions to current issues. Join us to hear cooperatives from all sectors, including industry, service, agri-food and forestry, retail, banking, and renewable energy, present their priorities for the 2024-2029 EU term and their vision for a sustainable and competitive Europe.

The event will take place in Room 3H1 of the European Parliament.
